During the site inspection at the Wabash Paper Coating site (FIN0662SB) on April 17, 1991, a number of errors were made on the paperwork. The following corrections should be noted.

1. The shipment was complete with one organic cooler and one inorganic cooler, and the shipment complete should have been indicated on both the ITR and OTR.
2. The tag numbers for both organic and inorganic samples, S1-S7 should read on each of the OTR and ITR.
